## H. L. Speer Speaker At Lions Club

Herbert L. Speer, assistant County agriculture agent, was guest speaker at the Tuesday luncheon meeting of the Pahokee Lions Club.

Introduced by Frank Rozelle, the speaker chose "Things, Old and New" as the subject of a talk in which he described some of the changes in the economic life of the Glades area in recent years. One of the changes he pointed out has been the ups and downs of the dairy business in the Glades. There were several dairies in the Glades in the early days, then all went out of business because of certain problems peculiar to this area. Today, some of the problems facing the dairy farmer, such as feed supplies and insect control, have been solved to some degree in the Glades and dairy interests are again considering the Glades area as a suitable location for dairy farms. Speer said, pointing to the new dairy at Browns Farms as an example of this trend.

Clyde A. Canipe, vice president, presided in the absence of President Ralph O. Johnson.

## Pahokee PTA To Send Questionnaire

The new executive board of the Pahokee Parent-Teacher Association, which has selected "Your Child in Your School" as the PTA theme for the 1954-55 school year, this week sent a questionnaire to the parents of all children attending Pahokee Schools in an effort to determine what PTA activities the parents will be most interested in or wish to see improved during the new year.

The questionnaire covers inquiries of the parents' attitudes toward (1) home school relations with regard to homework, (2) the school cafeteria program, (3) the principal PTA Project for the year, (4) PTA programs at regular meetings, (5) the manner of making the monthly awards to school groups for parent attendance at PTA meetings, (6) the possible need of a special committee to study problems and helps for slow students, and (7) participation in PTA study groups.

After filling out the questionnaires the parents are asked to mail them immediately to Principal Clyde A. Canipe at the Pahokee School where the answers will be studied and evaluated by the board.

Although the Pahokee PTA has never attained a Blue Ribbon rating in achievements, the new executive board will strive to make the new year an outstanding one for the Pahokee PTA and hopes to reach the coveted Blue Ribbon goal, according to Mrs. John A. Dulany, the new president, who has appointed Mrs. R. T. Smith of Canal Point, a vice president, as the Blue Ribbon chairman for the year.

Mr. and Mrs. Louis Vann and family are spending a summer vacation with relatives in Atlanta, Ga.

### Cinematic Chatter

By Malcolm Millar

Hello everybody! Postponing marriage until the man has acquired a "nest egg" is not a sound idea in the opinion of singing star Gordon Macrae. In a recent picture Gordon had the role of a young man who asks his girl friend to set back their wedding date until he can gather together some more "downy green" to sort of see them along the way. Macrae says: "Actually I don't think that is a wise attitude. My Theory is marry first and save the 'nest egg' later. If you wait, you'll miss happy years and may even lose the girl of your choice. In fact, I am convinced that it is easier to save money after you're married provided you are lucky enough to pick the right girl." Macrae's own case if proof of his

theory. He met his beautiful blonde wife, Sheila, when both were students at a dramatic school in New York City. Not long afterwards he popped the question. There was no money in the bank, and Gordon's sole income was the \$50 a week he was earning as a member of Horace Heidt's quartet. Sheila also felt that love meant more than security, so they were married in Cleveland where Heidt's band was playing at the time, even though Gordon's and Sheila's parents recommended that they wait until they had acquired that "nest egg." Soon after their marriage Macrae enlisted as an Air Force navigator during World War II. By the time he had finished his stint with the Armed Forces as a lieutenant there was a first addition to the family—a girl—Meredith—but not a "nest egg." It is only during the last few years that Gordon Macrae as a top movie star has been able to really get down to saving money. "But what a mistake it would have been, if I had waited until I could afford to get married," Gordon laughingly concludes. See you at the movies—Mal.

TAMPA—It appears that three West Coast counties will have jurisdiction over portions of the new Lower Tampa Bay Bridge which is scheduled to be opened early in August.

It had been thought the bridge was wholly within Pinellas and Manatee counties which it connects, but the County Commissioners of Hillsborough were informed last week by engineers of the State Road Department that Hillsborough will control about 22,000 feet of the gigantic \$24,000,000, 15-mile structure. Traffic controls will have to be worked out between the three counties on the basis of jurisdiction.

### Wise Stepmother

Have you heard about young Skeeter Roberts' unusual pet, the tame owl "Blinky"? He's had her about three years.

I say "her" because up to a couple of weeks ago nobody was quite sure. But now "Blinky" is a mother—of two chicks!

Seems "Blinky" had been acting kind of strange—so on a hunch, Skeeter put a couple of hen's eggs in her nest. Darn if "Blinky" didn't set on them for 5 days! Last Friday they hatched, and now "Blinky" is as proud as a mother hen! (So's Skeeter.)

From where I sit, there's a lesson for all of us. Guess you'd call it "tolerance." Birds and animals often seem to do better in that respect than humans. If I like a glass of temperate beer with supper and you'd rather have cider—it should be okay with both of us. Neither of us should give a "hoot" what the other fellow likes, says, or does, as long as he follows the law of the land. Right?

*Uncle Sam made the bonds you own  
an even better bargain!*

# Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 ... a \$37.50 Bond will be worth \$67.34 ... and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 ... in 9 years and 8 months, you'll have \$2,850.70 ... and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

**If you want to be paid  
your interest as current income—  
invest in 3% Series H**

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.

## Christian Science Group Of Canal Point

That spiritual understanding of God protects man from disease and danger, and is not subject to material laws of chance and change, will be brought out at Christian Science services Sunday.

Keynote of the Lesson-Sermon entitled "God The Preserver of Man" is the Golden Text from Deuteronomy: "The eternal God is thy refuge, and underneath are the everlasting arms" (33:27).

Selections to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include the following:

"God has endowed man with inalienable rights, among which are self-government, reason, and conscience. Man is properly self-governed only when he is guided rightly and governed by his Maker, divine Truth and Love" (106:7).

From the King James Version of the Bible the following verses will be among those read: "Because thou hast made the Lord, which is my refuge, even the most High, thy habitation: There shall be no evil befall thee, neither shall any plague come nigh thy dwelling" (Psalms 91:9, 10).

## Defense is your job, too!

**THIS IS A DAY OF DREAMS COME TRUE**... for the returning Korean War veterans pressing against the ship's rail and for their loved ones waiting on the dock. The counted days of waiting are over, the nightmare of war is behind them. These boys have been far across the seas doing a hard, dirty, bloody job... a job of defense—for you.

But defense is your job, too. It is our job to help make America's economy as strong and dependable as these men have made her military power. And your job can be not only easy but rewarding—in financial security for you and your family. Just buy U.S. Defense Bonds. Buy them now and buy them regularly. For your bonds and other forms of saving can make America strong. And in this warring world, *strength* is America's surest guarantee of peace.

So sign up for bonds today—through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank. For your security and your country's, too, buy United States Defense Bonds regularly!

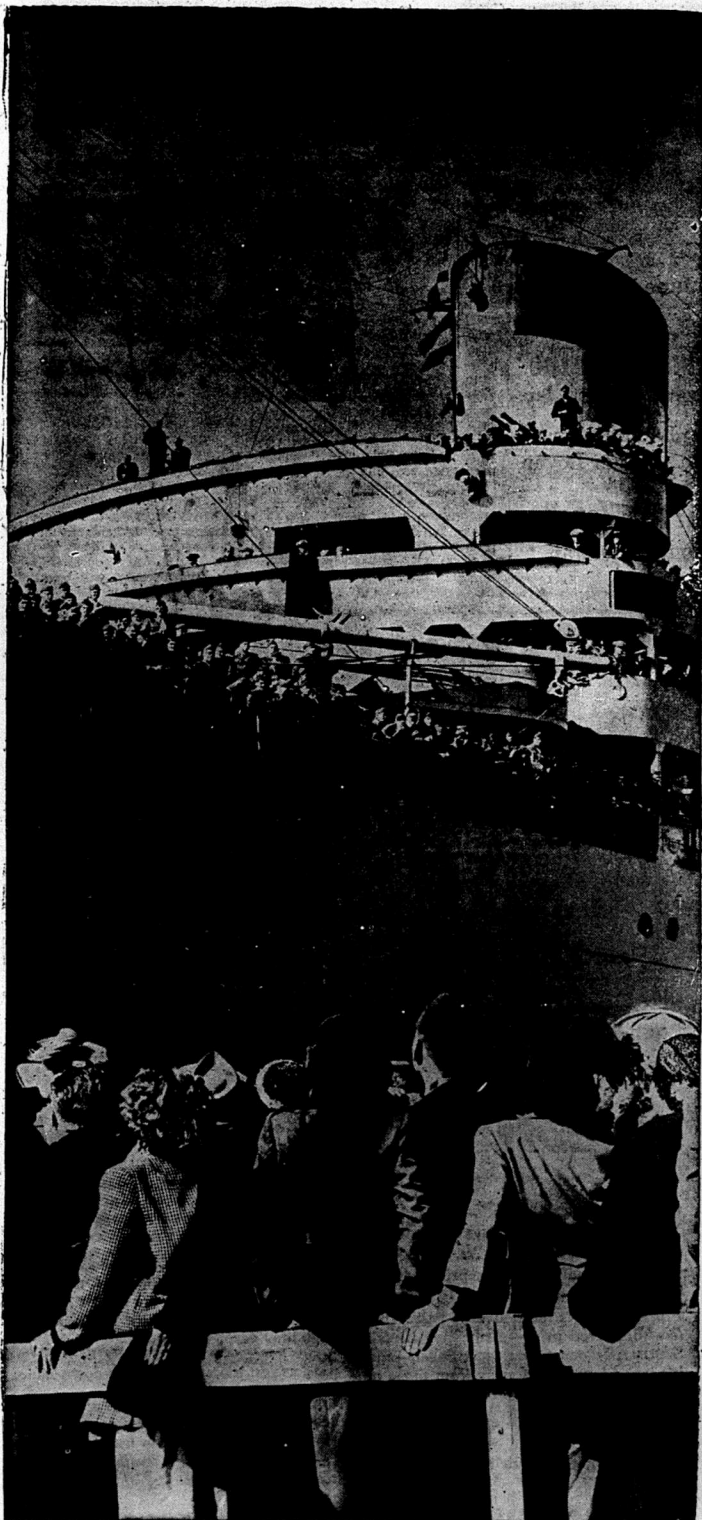

### The U. S. Defense Bonds you buy give you personal financial independence

Don't forget that bonds are now a better buy than ever. Because now *every Series E Bond you own* can automatically go on earning interest every year for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not just \$25—but as much as \$33.33! A \$37.50 bond pays \$66.66. And so on. For your security, and your country's too, buy U. S. Defense Bonds now! Bankers recommend them as one of the safest forms of investment.
